

# *The Longest Night*

*A service of solace*

*For many of us, days leading to Christmas are not filled with joy and celebration as much as feelings of sadness or longing.*

*If this sounds familiar, or if you simply want a peaceful space, we invite you to join us for a candlelight service of reflection.*

*On the threshold, come through the door to what matters after a year of bad news, disasters, anxieties, pain, and sadness.*
